Mr. Harold Weisberg.

Dear Sir. Thank you for doing what thousands of Americans hoped to hear about — the true facts about Mr. Kennedy's assassination. Please tell me where I can purchase your book — if you can send it direct, please state the price on the enclosed card so that I can send a check.

One question I hope is answered in the book is — what was Mr. Johnson doing those weekend nights. Last, he should have remained in Wash. D.C. — also why did he hold his arm once he wasn't shot — wasn't remorse? guilt? who knows.

Kennedy & Mr. Johnson were campaigning. Mr. Johnson did not want to accept the vice presidents position; from it came that Mrs. Johnson urged him to do so saying Mr. K. was a sick man & if he died while in office Mr. J. would be president? Remember, when I read this, that I was shocked by such a brutal statement.

I wish there were more men who would die for facts — people — that is average people, forget the gaily and should be reminded.

Again many thanks

Mrs. L. Everett
